

Displaying **CLICKSOR** advertisements on your **Joomla!** Site

1. Go to your Clicksor Publisher Area > Site > **Get Code** area. Download the **Joomla Plug-in Download**.

CLICKSOR™ | publisher

The screenshot shows the Clicksor Publisher Area dashboard. At the top, there is a navigation bar with links for Home, My Account, Ad Setup, Reports, Support, and Logout. Below the navigation bar, there is a section titled "Please choose any of following services to continue." This section is divided into two main areas: "Banners, Pop-under Ads, Inline Text Link" and "Search box, XML feeds".

The "Banners, Pop-under Ads, Inline Text Link" section contains the following options:

- Generate New Ad Code
- Update Ad Code and ClicksorControl™ Settings
- System Plug-in for Pop-under and Inline Text Link Ads
 - WordPress Plug-in Download
 - Drupal Plug-in Download
 - Blogger Ad Widget Setup
 - Joomla Plug-in Download** (highlighted with a green dashed box)

The "Search box, XML feeds" section contains the following option:

- Generate XML / Search Box Feed Code

On the right side of the dashboard, there is an "Account Manager" section with the following information:

- Name: Leslie Fung
- Email: leslie@clicksor.com

2. Log into your Joomla Administrator area. Find the **Extensions Menu** and select **Install/Uninstall**.

The screenshot shows the Joomla Administrator area. The top navigation bar includes Site, Menus, Content, Components, Extensions, Tools, and Help. The "Extensions" menu is open, showing a list of options: Install/Uninstall, Module Manager, Plugin Manager, Template Manager, and Language Manager. The "Install/Uninstall" option is selected.

The main content area displays a grid of management tools, including:

- Add New Article
- Article Manager
- Media Manager
- Menu Manager
- Language Manager
- User Manager
- Global Configuration

On the right side, there is a "Welcome to Joomla!" section with the following text:

Welcome to Joomla!

Congratulations on choosing Joomla! as your content management system. To help you get started, check out these excellent resources for securing your server and pointers to documentation and other helpful resources.

Security

On the Internet, security is always a concern. For that reason, you are encouraged to subscribe to the [Joomla! Security Announcements](#) for the latest information on new Joomla! releases, emailed to you automatically.

If this is one of your first Web sites, security considerations may seem complicated and intimidating. There are three simple steps that go a long way towards securing a Web site: (1) regular backups; (2) prompt updates to the [latest Joomla! release](#), and (3) a [good Web host](#). There are many other important security considerations that you can learn about by reading the [Joomla! Security Checklist](#).

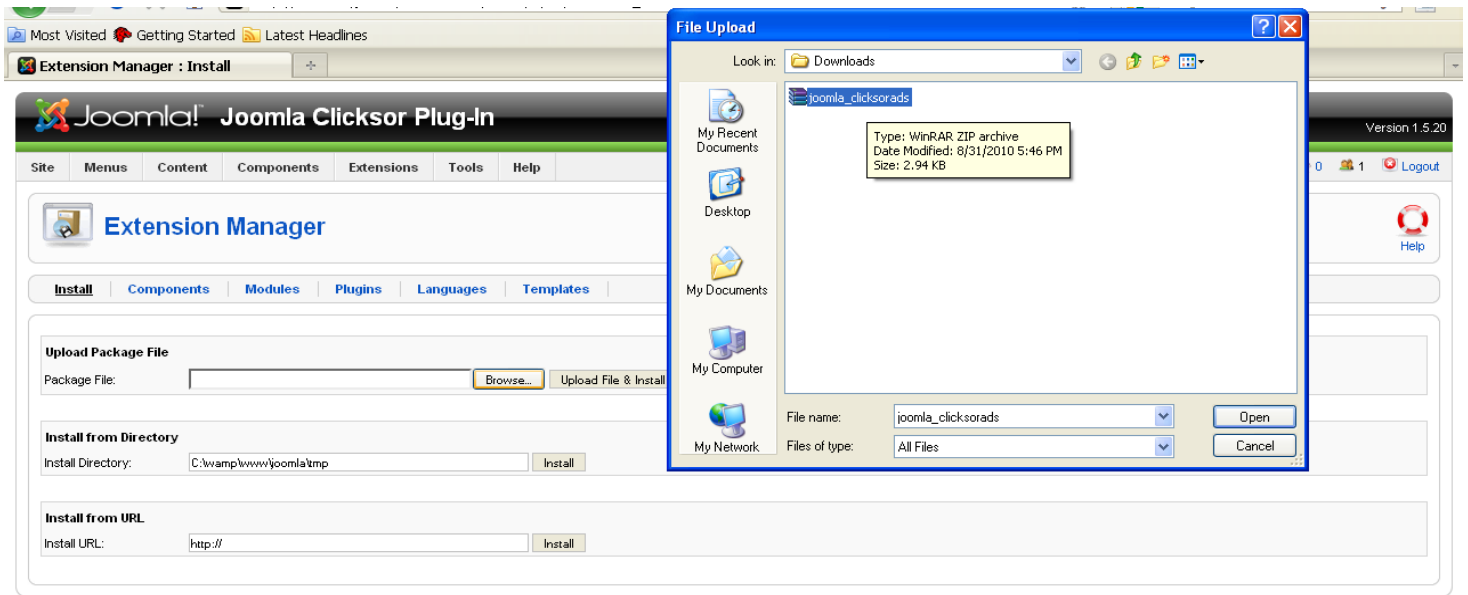

If you believe your Web site was attacked, or you think you have discovered a security issue in Joomla!, please do not post it in the Joomla! forums. Publishing this information could put other Web sites at risk. Instead, report possible security vulnerabilities to the [Joomla! Security Task Force](#).

Learning Joomla!

A good place to start learning Joomla! is the "[Absolute Beginner's Guide to Joomla!](#)" There, you will find a [Quick Start to Joomla! guide](#) and [video](#), amongst many other tutorials. The [Joomla! Community Magazine](#) also has [articles for new learners](#) and experienced users, alike. A great place to look for answers is the [Frequently Asked Questions \(FAQ\)](#). If you are stuck on a particular screen in the Administrator (which is where you are now), try clicking the Help toolbar button to get assistance specific to that page.

If you still have questions, please feel free to use the [Joomla! Forums](#). The forums are an incredibly valuable
